

### Controller Bentrup TC 66

Price with VAT 60,50 € (208,89 Lt)

This price is only valid when buying a new kiln and changing standard controller TC 44 in this Bentrup TC 66

Compact and powerful programme controller for almost all applications. Fully adjustable firing curve (programme delay, linear heat up in 2 segments to final temperature, settable dwelling and controlled cooling). Six programmes which can be adapted to your applications which are saved after power down. High kiln safety and easy controller operation. Best buy for feature and price.
